

FORMETCO SPORTS SYSTEM CONTROLLER

Formetco offers a powerful software solution - based scoreboard control is a presentation system built upon an easy to use presentation platform that offers myriad of features; which includes moderated social network feed display, ticker feeds, video playback, telestration tools, and broadcast CG capability. Formetco Sport System Controller offers a host of features for video-based scoreboards and sports broadcasting.

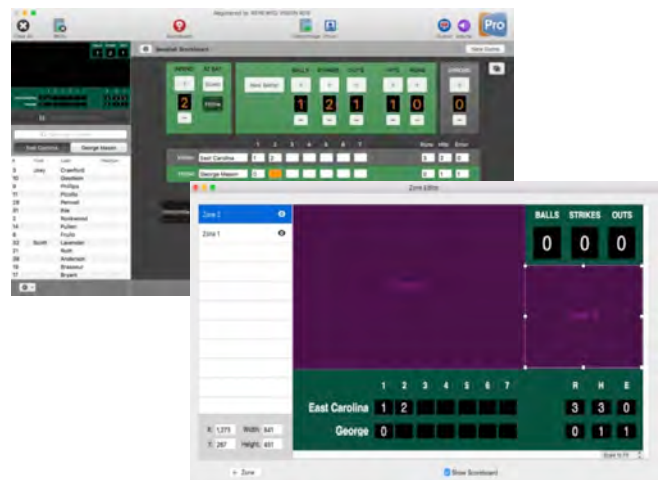

FORMETCO SPORTS SYSTEM CONTROLLER

- **Easy-to-Use Interface** – Designed for volunteers / students
- **Multiple Sports Support** – Quickly change between control interfaces and output for multiple sports
- **Device Control** – Controllable by Industry Standard Scoreboard Controllers, or by the on- screen interface
- **Dynamic Advertising Zones** – Unlimited ad zones with rotating stills, animations or videos
- **Ad Tracking** – Export comprehensive reports for ads to provide to sponsors
- **Template Based Layouts** – Easily change the look of the entire output
- **Full or Partial Screen Video Playback** – Dynamically trigger interstitials, such as “Great Play”, etc.
- **Video Input Capabilities** – One or more live video feeds can be shown on the scoreboard
- **Remote Control** – Built-in webserver to control the interface remotely via tablet or laptop
- **Player Profiles** – Present formatted XML data and images dynamically
- **Dynamic Statistics Display** – Display web-based stats dynamically from a variety of services
- **Video and Image Scaling** – No need to purchase expensive separate video scalers

EASY TO USE INTERFACE

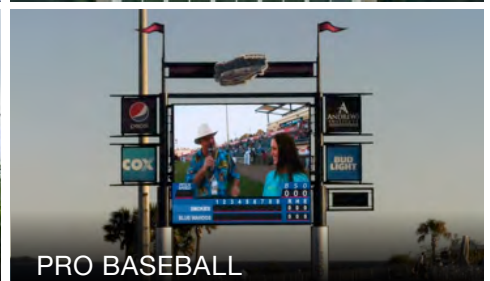

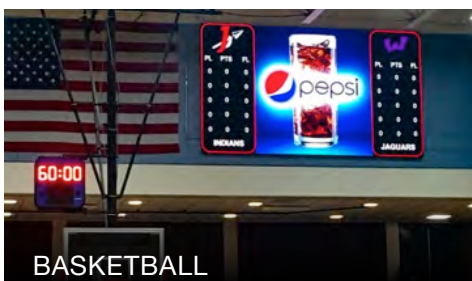

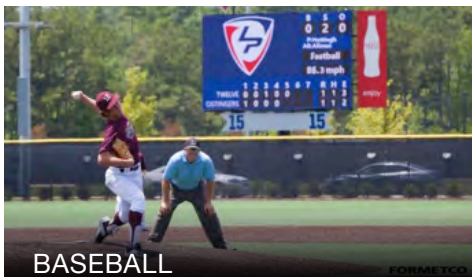

One of our primary goals is to make this scoreboard very easy to use so the cost and time of training is almost eliminated. Ideally this is intended for students or volunteers that don't have a lot of technical expertise or background.

The user interface is very straight forward for operators. We'll also be creating a series of video tutorials to walk you through how to use the software. We're very budget conscience so we don't feel you should have to pay for someone to be certified just to know how to operate your scoreboard.

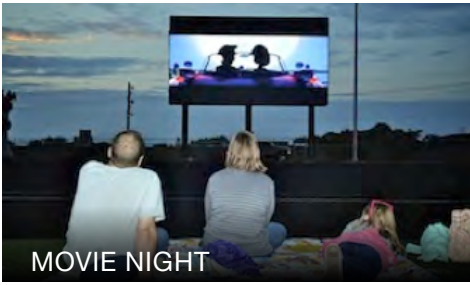

MULTIPLE SPORTS AND ADDITIONAL USES

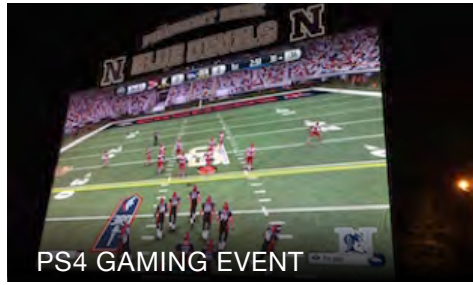

Easily change between multiple sports such as Football, Baseball, Softball, Soccer, lacrosse, Volleyball, etc. so your board can be used for more than one sport.

Why stop at sports? Schools can use their LED walls for a wide variety of other community events such as movie night, game night, graduation, other social mixers and/or fund-raising events, etc. Our software can easily facilitate all these events.

MOVIE NIGHT

PS4 GAMING EVENT

TEAM MEETING

SPECIAL EVENTS

SPONSOR RECOGNITION

REMOTE LIVE GAME BROADCAST

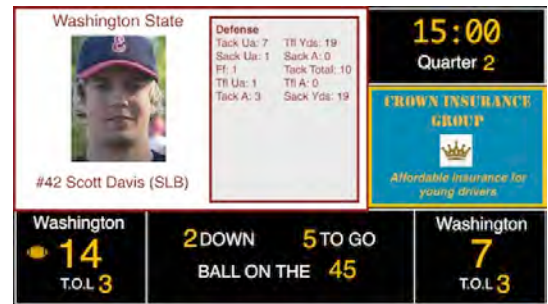

DEVICE CONTROL

Formatco's Scoreboard can easily integrate with existing scoreboard controllers like those shown below so traditional methods of scorekeeping and clock management can still be used. Just plug the serial connection in and you have access to display the consoles game clock, scores, and any other data it provides.

PLAYER ROSTERS AND PROFILES

Keep track of players for both sides and put your team members up on the big screen by showing Player Profiles. You can include a picture and description (name, position, etc.) on a dynamic background and have it graphically styled and laid out in any way desired.

DYNAMIC STATISTICS DISPLAY

Display web-based stats dynamically from a variety of services. Ability to present formatted XML data and images. Currently compatible with Statcrew and MLB.

REMOTE CONTROL

For those sports that require ringside score-keeping, we've got you covered with our remote scoring ability viewable on any tablet or phone via a web connection (closed network highly recommended).

Football Remote Interface

Soccer Remote Interface

Lacrosse Remote Interface

Football Clock Remote option for Officials

ADVERTISING SPONSOR PANEL MANAGEMENT

Easy to set up and use, Advertising Sponsor panel zones. Each zone can hold an almost unlimited number of Advertisements that rotate. Each of the 13 advertising zones below can have multiple advertisers in each zone increasing your available inventory of Advertising space using zones that rotate multiple advertisement.

AD STATS AND REPORTING

Export a comprehensive report on the advertising for any event showing ad impressions and time in front of an audience. Share this with your sponsors so they can see exactly what they're paying for.
