

INDOOR LED VIDEO SCOREBOARDS

Formetco offers a wide range of pixel pitches for indoor applications, from 5.2mm to 1mm. Available in a wide range of sizes and configurations. As with all Formetco LED Video Screens the FSI product does not have any fans, operates without generating any noise, has a 5-year parts warranty, and is supported by our 7 day a week service center.

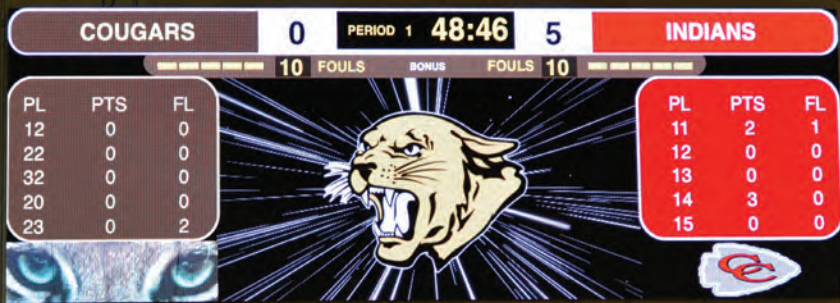

INDOOR LED VIDEO SCOREBOARDS

HIGH RESOLUTION

Formetco's FSI 5.2mm and 3.9mm pixel pitches are available in a two different cabinet sizes. When combined, this unique design feature provides a wider range of LED Video screen sizes with a 16:9 aspect ratio. The FSI product line allows for serviceability from the front or the back. The LED tiles are attached magnetically providing for quick and easy removal.

ULTRA HIGH RESOLUTION

Formetco's FSI High Resolution product line starts at a pixel pitch of 2.9mm and then goes down to 2.5mm, 2mm, 1.8mm, 1.6mm, 1.5mm and 1mm. The FSI High Resolution building block is based upon a 16:9 ratio, so we can offer LED screens with a true 16:9 aspect ratio. This product is designed more for wall mounted fixed

installations. The cabinetry is very lightweight and thin at only 2.77" deep. Formetco's wall mounting system will meet ADA specifications with an overall depth of the LED Video screen and mounting brackets under 4" off the wall.
